Forecast for Sunday 25 Apr 2021

Weather: A fine dry and sunny day for the vast majority, however a few isolated afternoon showers may appear across some central and southern ranges. Early evening brightness best in the south, with higher cloud increasingly spreading from the north, but all should be dry.

Chance of cloud free mountain/hill tops above 800m: 95% plus.

Visibility: Mainly very good, falling poor in afternoon showers, and very poor in associated cloud as the odd patch lowers across the summits.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Met Office Aberdeen Meteorologist's View
Risk sunburn in exposure with strong and plentiful afternoon sunshine.

Forecast for Monday 26 Apr 2021
Weather: A change with cloud and bands of showery rain clearing from the northwest through the morning as snow level soon lowering 800-1000m. Clearing to sunshine and scattered showers for the afternoon, with outbreaks tending to ease during the evening.

Maximum wind: West or southwest initially mean 30 mph with gusts 40-45 mph across most exposed ridges and summits, decreasing mean 20 mph from early evening.

Chance of cloud free mountain/hill tops above 800m: 30% during the morning, 80% from the afternoon.

Visibility: Becoming moderate or poor in rain and showers, less in cloud. Bases broken to extensive from 600-900m, becoming scattered from the afternoon.

Temperature: **Glens:** Plus 2 Celsius increasing 14 Celsius during the afternoon
At 800m: Zero to plus 2 Celsius
Freezing level: Above summits soon lowering 1000-1200m
